We are creating an e-commerce site for collectible sports cards featuring soccer, basketball, and football players. The cards will range from common to rare, with common cards being widely available and rare ones showcasing legendary players, limited editions, or special features like autographs and serial numbers. Users can browse, purchase, and manage their collections through an intuitive platform that includes an account page, checkout process, and secure payment system. The site will also offer an About page, FAQ, and search functionality, ensuring a smooth and engaging shopping experience for both casual fans and serious collectors.

Main page (will include more than 12 cards to buy)
